Product Change Notification

TVS DIODES

March 11, 2019

Bourns® TVS Diode and TVS Diode Array Series

Change to Wafer Size and Process Sequence

In order to support our fast growing demand and secure continuity of supply for our customers, the Bourns® TVS Diode and TVS Diode Array products listed below will now be built on 5-inch wafers instead of 4-inch wafers. The wafers will be processed using new 5-inch capable furnaces and equipment, with optimized 5-inch wafer process steps. This change in the size of the wafer and wafer process steps will improve manufacturability of the affected products. There will be no change to the form, fit, function, quality or reliability of the products.

Affected Part Numbers				
<u>CD143A-SR05</u>	CDNBS08-T12C	<u>CDSOD323-T15S</u>	CDSOT23-T03LC	<u>CDS0T23-T36</u>

Evaluation samples are available now.

Implementation dates are as follows:

Date that manufacturing using 4-inch wafers will cease: **September 30, 2019**Date that deliveries of products using 5-inch wafers will begin: **October 1, 2019**

First date code using the 5-inch wafers: 1847

If you have any questions or need additional information, please feel free to contact <u>Customer Service/</u> Inside Sales.
