

Weller - Working for a Clean Environment

Weller Zero-Smog® extraction systems provide clean air in the workplace

Health protection in the workplace

The modern Zero Smog 4V solder fume extraction system reduces solder fume levels in the workplace and thus protects the user against the harmful effects of fine dust.

Helping to protect the environment and natural resources

Low energy consumption is ensured by an automatic speed control system as well as by automatic time-controlled cut-out of the turbine and backlit display.

**One
extractor
arm free
of charge!**

Energy efficiency that pays
