

IR-STS02 Raspberry Pi HAT

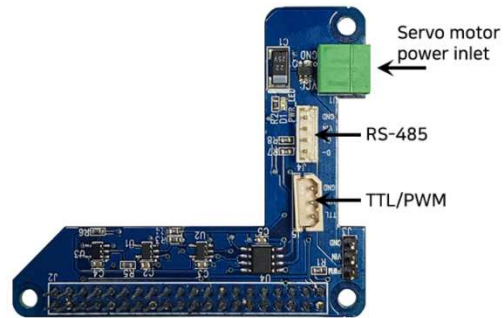

IR-STS02 is a Raspberry Pi add-On board which is compatible with Raspberry Pi B3 or Raspberry Pi Zero. With TTL/RS-485/PWM communication interface, power connector and GPIO pins, user is able to control mightyZAP on Raspberry Pie.

Composition

- IR-STS02 Raspberry Pi HAT x 1EA

How to connect

- Power :12V or 7.4V according to actuator's input voltage.
- Use 5pin Micro USB cable which support data transfer. (do not use "Charge only" wire)

Features

- Raspberry Pi add-On board which is compatible with Raspberry Pi B3 or Raspberry Pi Zero.
- RS-485/TTL/PWM Interface
- 7.4V or 12V input (According to actuator's input voltage)
- Raspberry Pi GPIO pins
- Python API/Library available.

Thank you for your attention.
