Always mount dispensers securely *prior* to loading with product.

- Compact design can also be used to hold signage when not in use with a dispenser.

**1**

- Mount securely to a wall with screws approved and supplied by building maintenance.
- Always install hangers securely *before* mounting a dispenser to them.

**2****Parts included:**

- Dispenser

Tools Required:

- No tools required to assemble dispenser

Care and Construction

Powder-Coated Steel

Material Characteristics

Designed for Long-Term, Heavy-Duty Applications

Dispensers and stands made of powder-coated steel are both attractive and functional, providing years of service. Our powder-coated steel dispensers and stands provide long-lasting products that hold up well in tough environments.

Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting. It is impact resistant and is not effected by extremes in temperature.

Care and Cleaning

The powder-coated finish resists common chemicals and cleaning agents and can be easily wiped clean with soap and water.
