Q&A

Question: Does the amplifier come with remote control for easy audio control?

Answer: Yes, the remote controller will be inside the box.

Question: Can I use the amplifier to amplify the sound of my guitar or other instruments?

Answer: Technically, yes, but for optimum results, consider getting a dedicated guitar amp.

Question: What is the maximum power output of the amplifier, and is it suitable for large gatherings or events?

Answer: 300W, and it is suitable for modest gatherings.

Question: Does the amplifier have any safety features, such as thermal protection, to prevent overheating?

Answer: Yes, the amplifier does come with safety or protection from overheating and thermal.

Question: Can I customize the audio settings, such as bass and treble, for optimal sound quality?

Answer: Yes, the stereo amplifier does come with EQ control; you can personalize the output.
