

Unlock your Guitar's Potential with Guitar capo

1. **Good function:**The 5 Core Guitar Capo is a **versatile tool** that allows for **quick and easy changes** in interval degrees on various instruments such as **acoustic, classic, and electric, bass, violin, ukulele, and more**. It is designed for **effortless release and repositioning**.
2. **Rubber pads:****Rubber pads** are integrated into the capo design to provide **comfort for your thumb** while in use. With the ability to operate with just one hand and **fit comfortably in your hand**, these capos can clamp on most fretboards. They are small in size, making them **portable and rustproof**, making them suitable for use on different widths of instruments.
3. **Avoiding scratches:**Using **high-quality rubber pads** in the clamp design ensures that your **instruments remain undamaged** and free of scratches. The rubber pads are an effective safeguard against any harm to your instrument.
4. **Perfect sound:**The high-performance capo **ensures perfect sound** by keeping the **strings tight and eliminating buzz**.
5. **Practical gift:** These clamps are available in **various colors**. They make for great **practical gifts** for friends or loved ones who enjoy playing the guitar or other instruments.

Product Description

The 5 Core Capo is the perfect addition to your guitar & wonderful gift for your musician friend.

Whether you are a studio musician, a stage performer, or just jamming with friends, **changing keys quickly and easily** is a valuable asset. A **high-quality clamp** allows you to do just that with a simple squeeze of a lever, eliminating the need for time-consuming tuning adjustment.

With the 5 Core Capo/Kapo, you can expect a **buzz-free and perfectly in-tune performance** at any fret. Its spring-loaded design allows for **easy application and adjustment** with just one hand, and it can be conveniently stored on the peg head when not in use. This Capo is **perfect for quick changes on stage** and is **suitable for acoustic and electric instruments**.

At 5 Core, Customer satisfaction is our priority with a proven track record of delivering the highest quality product since 1984.

Capo Features

| No Scratches | No Buzz | Easy to Use | Versatile |
|--|--|--|--|
| The silicone rubber lining that covers the entire gripper jaw protects your guitar from scratches or damage. | With the built-in spring, our Capo clamps the jaw around the instrument neck, applying the perfect pressure for a buzz-free performance. The strings are kept tight, and there's no more fret buzz without a high-performance clamp. | Moving and removing the capo is easy. Simply squeeze the trigger with your hand to release the tension, move it to the desired position, and release it. | The 5 Core Capo is one of the best guitar accessories you can own. It works with acoustic and electric, banjos, mandolins, and ukuleles, making it a perfect accessory for any musician. |

Usages of Capo

Best CAPO for acoustic guitar.

A clamp can help you adjust the key to suit your voice better.

It allows you to change the song's key without learning new chords.

The clamp can be used to simplify fingerpicking patterns and make them easier to play.

The capo can help you achieve alternate tunings without having to retune your entire instrument.

Benefits of products

Play in a comfortable key that suits your vocal range.

Experiment with different chord voicings and open positions.

Achieve alternate tunings without having to re-tune your guitar.

Play more easily in keys that use difficult chords, such as F or Bb.

It lets you transpose easily without having to learn new chords.

Benefits of 5 Core over other products

Frequently Asked Questions & Answers About Guitar Capo

Question: Does the clamp support electric guitar?

Answer: Yes, it does.

Question: Do I need to buy a specific Capo?

Answer: No, most clamps are universal and will fit on most standard-sized guitars.

Question: Can the clamp damage my instrument?

Answer: It is very unlikely that clamp will damage your instrument. But to be on the safer side, buy one with rubber padding on it, just like 5 Core clamps.

Question: How does this work?

Answer: The capo works by shortening the length of the strings that are being pressed down, which raises the pitch of the strings.

Question: Where should I place the clamp on the neck?

Answer: The placement of the clamp on the neck will depend on the desired key and sound. A good rule of thumb is to place the clamp as close to the fret as possible without touching the fret.
