

CDKW01 B

## About Item

1. **Convenient Qi Wireless Charging:** Experience seamless charging by using the 5 Core charging dock Station. A well-designed wireless charger for iPhone and Android gives you the freedom to eliminate over-dependency on fragile wires. It is a case-friendly charging station meaning the charging doesn't stop even with the case attached to the phone.
2. **Ultra Slim:** With a thickness of just 0.3 inches, this wireless charging pad boasts an ultra-slim design that enables you to carry it with ease in your pocket or bag. The inclusion of Type-C cables ensures faster charging speeds for Your Qi-compatible devices.
3. **Sleek Design:** This charging pad features a unique design that is ideal for AirPods and offers anti-Skid protection. To get the best charging results, place your device on the center of the wireless charging pad's silicone ring. The four silicone pads located underneath the charger are also anti-skid.
4. **Safe and Certified:** This wireless charger has been certified by Qi and UL and features Multifunctional Intelligent Protect Technology that provides various safety measures such as temperature control, over-voltage protection, over-current protection, short-circuit prevention, and Foreign Object Detection. These features guarantee your safety while using the device.
5. **Case-friendly & sleep-friendly charging:** The 5 Core Wireless charger is compatible with most smartphone cases that are up to 4mm thick. However, cases made of metal or featuring external attachments such as magnets, credit cards, grips, and stands will trigger foreign object detection and can interfere with charging. The sleep-friendly LED indicator shows the charging status without disturbing your sleep.

## Q&A

**Question:**What devices are compatible with this wireless charger?

**Answer:**The 5 Core wireless charger is compatible with a variety of devices, including Airpods & Qi-enabled smartphones.

**Question:**Can I charge my phone with the case on?

**Answer:**Yes, you can charge your phone with a case on, as long as the case is less than 4mm thick and has no metal card in between.

**Question:**How long does it take to fully charge a device?

**Answer:**The charging time will depend on the device being charged and its battery capacity. However, our wireless charger features high-efficiency charging that saves time.

**Question:**Is it safe to charge my device overnight?

**Answer:**Yes, the 5 Core charging pad features exclusive safety features like surge protection and temperature control to prevent overcharging and overheating.

**Question:**Can I use my phone while charging on the wireless charger?

**Answer:**Yes, you can use your phone while it's charging on the wireless charger. However, it's recommended to keep the phone still and avoid moving it around to ensure proper charging.
