About Item

1. **Efficient:** The 5 Core coffee grinder features a 150W copper motor that grinds fast and preserves aroma; it has 35000 RPM, 75 dB max motor sound for quiet operation, and a large 50-gram capacity.
2. **Stylish & Practical:** Ergonomic, stylish, and easy-grip body, pulse button, and transparent lid with safety lock for easy texture check. The Cord storage keeps the space tidy and clean.
3. **Versatile:** The electric grinder boasts stainless steel blades that grind coffee beans, herbs, spices, grains, and more.
4. **One Touch Push-Button:** Easy to use one-touch push button control for customized grind consistency.
5. **Easy clean-up:** Our coffee bean grinder is effortless to clean, and the stainless steel grinding bowl takes only minutes to clean, fill, and pour.

Product Description

The 5 Core electric coffee grinder is convenient for grinding coffee beans, spices, and more. Its removal, durable, grinding bowl makes it easy to fill with coffee beans and pour ground coffee to brew up to 10 cups, and it's simple and intuitive to use. Just place the lid on the grinder, press the button to grind the coffee, and release it to stop the process.

With a 5 Core electric grinder, you can enjoy the taste of freshly ground coffee every morning without needing to deal with messy clean-up! At 5 Core, Customer satisfaction is our priority—a proven track record of delivering the highest quality product since 1984.

Features

Rapid Grinding	Multipurpose	Grind & Mix with ease	Safety Operation
5 Core coffee grinder adopts a 150W large power & high-quality motor that runs up to 35000 rpm for high grinding efficiency, making you get fine coffee powder easily and enjoy a cup of delicious coffee every day.	Use the small countertop grinding machine as a grain mill grinder in the kitchen, a nut grinder, a pepper grinder, a salt grinder, or an all-purpose spice grinder.	The ability to customize grind consistency for different types of coffee beans or spices is a fantastic experience that you will love.	The grinder can only work when the grinding bowl is locked in place, and the lid is correctly placed on the base. The base with non-slip rubber feet can achieve stable function and heat dissipation.
