5. **Easy installation:** The mountable siren reflex horn speaker comes with a **mounting bracket for easy and effortless installation.**

5 CORE

Product Description

The PA Audio Speaker is used primarily for the higher frequency range of music and other **audio content, resulting in increased accuracy, clarity, and detail.** This allows listeners to fine-tune the sound output more to match their preferences.

Because the tweeter drivers focus on high-frequency ranges, this is a very compact design and does not compromise performance. As a result, the speaker takes up less space in audio equipment and is easier to integrate into a variety of different places, such as school, hall room, office, etc.

Features

High quality sound	Durability	Flexible	Easy install
The high-quality and competent weather-resistant paging speaker that offers loud and clear audio. The reachability makes this driver horn speaker the ideal PA system.
