

# SPONGE

## About Item

1. **Microphone Cover Set:** This set includes two foam mic covers measuring 2.9 x 2.5 inches each. They are suitable for most standard handheld microphones but not for headset mics.
2. **Premium Foam Windscreen:** These foam windscreens are designed to reduce background noise during recording sessions without muffling the sound. They are washable for practical and sitar use.
3. **Perfect Filter:** These microphone covers effectively reduce pops, wind noise, and sibilant “S” sounds without altering the microphone’s natural sound.
4. **Wide Application:** Microphone foam windscreens are versatile and can be used for singing, voiceovers, KTV, dance balls, conference rooms, news interviews, stage performances, and any other scenario where quality sound is essential.
5. **Pro Tips:** The foam microphone covers are vacuum-sealed, so allow them some time to regain their original shape after opening. If they don’t fully return to shape, you can soak them in water, remove them, and let them dry.

## Product Description

5 Core microphone sponge covers are ideal for most handheld microphones. These foam covers excel at reducing background noise without muffling your sound. What makes them special is their washable design for practical and sanitary use. They act as the perfect filter, reducing pops, wind noise, and sibilant “s” sounds while preserving your mic’s natural sound. Whether you are a singer, voiceover artist, or presenter, these foam windscreens are perfect for you.

At 5 Core, Customer satisfaction is our priority—a proven track record of delivering the highest quality product since 1984.

inspected before they are sent to the end user, ensuring that the customers receive products of the highest quality and reliability. With a commitment to quality, affordability, and customer satisfaction, 5 Core is a brand people can trust for all their needs and wants.

## Q&A

**Questions:** Are these foam windscreens universal?

**Answer:** These foam covers are designed to fit standard handheld microphones.

**Questions:** How do I clean it?

**Answer:** These foam windscreens are washable. You can gently hand wash them with mild soap and water, rinse thoroughly, and allow them to dry completely before reusing.

**Questions:** Can the foam cover be used outdoors?

**Answer:** Yes, foam windscreen covers are useful for reducing wind noise during outdoor recordings.

**Questions:** Do they really improve the sound?

**Answer:** The foam windscreens are designed to improve sound quality by reducing unwanted noise without significantly altering the microphone's natural sound.

**Questions:** How often should I replace the foam cover?

**Answer:** The lifespan of a foam windscreen depends on usage and maintenance. If it becomes visibly worn, torn, or loses its shape, it's time for a replacement to maintain audio quality.
