

# About PA Speaker Stand

1. **Easy height adjustment:**The 5 Core speaker stand features a telescoping center column, adjustable 40 "-72" with pin and screw locks. Durable metal construction for long-term use.
2. **Tripod leg design:**The PA speaker stand boasts tripod legs with a center brace for stability, collapsible for easy transport. The speaker tripod stand can hold up heavy weights.
3. **35mm insert:**The 35 mm compatible insert for all types of speakers. Ideal for heavy-duty audio use.
4. **Easy storage:**The DJ speaker stands folds for easy storage and transport, suitable for home and professional use.
5. **Non-slip feet:**5 Core universal speaker stand is designed with non-slip rubber feet to give stability while in use.

## PA Speaker Stand Description

Featuring a telescoping center column that can be easily adjusted from 40 inches to 72 inches, our speaker stand allows you to find the perfect height for your speakers easily. The sturdy pin and screw locks on PA Speaker Stand ensure that the stand stays securely in place, while the rugged and durable metal construction tubing guarantees long-term use.

Designed with a tripod leg and center brace that connects legs for increased stability, our speaker stands can hold up to heavy-weight easily, making it the ideal choice for the loudspeaker, PA speaker, DJ speaker, studio monitors, and more. Plus, the 35mm compatible insert means that it's compatible with all types of speakers.

At 5 Core, Customer satisfaction is our priority with a proven track record of delivering the highest quality product since 1984.

## Q&A

**Question:** What kind of speakers can be used with a speaker stand?

**Answer:** Most speaker stands are designed to be compatible with a wide range of speakers, including PA speakers, studio monitors, and home theater speakers. It's important to check the specifications of your speaker stand to ensure compatibility with your specific speakers.

**Question:** How do I choose the right height for my PA Speaker Stand?

**Answer:** The height of your speaker stand will depend on a number of factors, including the size of your speakers, the size of the room, and your personal listening preferences. Generally speaking, it's best to position your speakers at ear level for optimum sound quality. Some speaker stands have adjustable height settings to accommodate different preferences.

**Question:** Can I use the speaker stand for outdoor events?

**Answer:** Yes, the 5 Core speaker stands are designed for outdoor use as well.

**Question:** How much weight is it?

**Answer:** The stand is 3.8 lbs.

**Question:** What color is the stand?

**Answer:** The stand is black in color.
