

SparkFun Deluxe Tool Kit

TOL-11805

This is SparkFun's new Deluxe Tool Kit! We've picked our very best tools and put together the ultimate kit of items we use on a daily basis. Whether you're a beginner looking to get into some serious hardware hacking, or just setting up a second workshop and need the complete kit, this has everything you need!

This latest edition of our deluxe tool kit adds several items, most notably the heaterizer, a third-hand kit, more hook-up wires, and our upgraded wire strippers and flush cutters!

Note: Sorry international folks, the SparkFun Deluxe Tool Kit only includes instruments with US power plug and voltage operation requirements.
