

Specification of 200Gbps QSFP56 Extension Copper Cable with the Adapter (connector to cage) for Liquid Immersion Cooling System

T C P - Q 1 5 1 B - N N E x x

↑ Length

Ordering Information

Model Name	TCP-Q151B-NNExx		Note
	TCP-Q151B-NNE22	TCP-Q151B-NNE36	
Feature	Adapter (convert connector type to cage type) with extended cable		
Connector type	QSFP56 (SFF-8665)		
Cage type	QSFP56 cage		
Temperature	0°C ~ +70°C		
Length	22cm	36cm	The length excludes connector and cage
Latch Color	Sky Blue 		

■ General Description

Immersion Cooling completes the immersion of electronic components in a dielectric liquid. All the heat generated by the IT is captured in the liquid. Suitable dielectric liquids can absorb approximately 1500 times more heat energy than air with the same volumes and temperatures. Formerica's QSFP56 extender with QSFP56 plug vs. QSFP56 cage is designed to be applied for immersion solution. It extends the 200G interfaces to surface, aiming to realize the interconnection of 200G transceivers and AOC.

■ Features

- Low EMI radiation
- Insertion Loss < 7.5dB @13.28GHZ/channel within 50cm
- Oil-resistance, dust-proof and anti-corrosion
- 100 ohm differential impedance system
- Low Near-End Crosstalk (NEXT)
- RoHS compliant

■ Applications

- Extend the 200Gb/s high speed interconnection for liquid immersion solution
- Extend the link of 200G AOC
- Extend the link of 200G transceiver

■ Applicable Documents

The following documents form a part of this specification to the extent specified herein. Unless otherwise specified, the latest edition of the document applies. In the event of conflict between the requirements of this specification and the product drawing, the product drawing shall take precedence. In the event of conflict between the requirements of this specification and the referenced documents, this specification shall take precedence.

- Compliant with QSFP-MSA / SFF-8436 / SFF-8665, IEEE 802.3cd, and Infiniband HDR.
- SFF-8417, EIA-364 Electrical Connector / Socket Test Procedures, including Environmental Classifications.

■ Absolute Maximum Rating

Parameter	Symbol	Min	Typ.	Max	Unit
Storage Temperature	Ts	-20		80	°C

■ Recommended Operating Conditions

Parameter	Symbol	Min	Typ.	Max	Unit
Operating Case Temperature	Top	0	25	70	°C
Data Rate per lane			50		Gbps

■ PIN Assignment

■ **Module Outline**

Note:

1. Standard length as LENGTH-A in drawing with tolerance. Option of LENGTH-A: 22cm and 36cm
2. Unit: mm
3. Compliant with IEEE802.3cd
4. LED function: Once pluggable QSFP56 connector end of the extender plugged into an equipment that support Vcc power 3.3v, the LED will be ON.
