

PPCN0425 Product Range Notification – Change of the Part Number Format

Date: 21/11/2024

To,

IQD Customers,

IQD current part numbers show the packaging identifier in the suffix of the Part Number; for example: LFSPX0019928Reel, LFSPX0019928Bulk, LFSPX0019928Cutt.

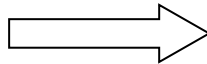

The decision has been made to change the part number format and remove the packaging identifier from the part number i.e. Reel, Bulk, Cutt, RL3K:

THRU-HOLE PRODUCTS

For thru-hole products the packaging remains unchanged, only the part number format will be changed to the following:

OLD FORMAT

LFXTAL003063Bulk (SPQ: 100)
LFXTAL003063Reel (SPQ: 1000)

NEW FORMAT

LFXTAL003063B (SPQ: 100)
LFXTAL003063 (SPQ: 1000)

The reason for this change is streamlining of the processes and improving the efficiency of the operational and business functions at IQD, and also simplifying the ordering process through consolidation of multiple part numbers.

Please be assured that this does not affect the fit, form, function, reliability or specification of any of the products. The change affects the Part Number format only.

If you require any further information, please do not hesitate to contact us at:
