**Customer Information Letter:**  
**Introduction of new inner boxes, removal of redundant label**

January 07, 2025

Ladies and gentlemen,

From mid of March 2025 onwards, we will introduce a new inner box, which will replace the existing one that is 35cm x 35cm x 5cm in size. The shipping and packaging details of the respective products will be updated accordingly.

Existing inner box	New inner box “P1” for MSL1 products	New inner box “P3” for MSL3 products
		
~35cm x ~35cm x ~5cm	~37cm x ~35cm x ~4cm	~37cm x ~35cm x ~5cm

The new boxes are qualified according to the ISTA 3A standard. During the transition phase, both the existing and new inner boxes may be delivered in parallel.

Furthermore, the second (redundant) label on the back of the reels will be eliminated.

These changes do not impact the form, fit, or function of any of the sensor products.

Products packaged in the inner box with 34 x 34 x 3.5 cm size are not affected by this change, and this box will not be replaced.

In case of questions, please contact your local Bosch Sensortec representative.

Yours sincerely

Bosch Sensortec GmbH
