

Dual Circuit Vertical Limit Switch with Wobble Stick - Coil Spring with 3 mm Diameter Plastic Tip, Rated for 10A @250 VAC

## **LIMSW-5166**

## **Limit Switch**

#### **Features**

- Double circuit limit switch
- · Solid integral cast aluminum alloy housing

### **Applications**

- · Material handling
- · OEM machine builders
- Food and beverage packaging
- · Conveyer systems

- · IP65 protection grade
- · Long mechanical life
- Machining
- Automotive manufacturing
- · Warehouse automation.

# Description

The L-com LIMSW-5166 dual circuit vertical limit switch is electromechanical device operated by physical force via a wobble stick - coil spring with 3 mm diameter plastic tip. This limit switch can be employed in industrial automation to limit the travel of tooling or machinery as well as for object detection and part counting. Applications include material handling, OEM machine builders, food and beverage packaging, conveyer systems, machining, automotive manufacturing, and warehouse automation.

### **LIMSW-5166**

### **Limit Switch**

Dual Circuit Vertical Limit Switch with Wobble Stick - Coil Spring with 3 mm Diameter Plastic Tip, Rated for 10A @250 VAC from L-com has same day shipment for domestic and International orders. Our portfolio includes coaxial cable assemblies, connectors, adapters and custom products as well as lightning and surge protectors, NEMA rated enclosures, and an RF product line which includes antennas, amplifiers, passive, and active components.

The information contained within this document is accurate to the best of our knowledge and representative of the part described herein. It may be necessary to make modifications to the part and/or the documentation of the part in order to impliment improvements. L-com reserves the right to make such changes as required. Unless otherwise stated, all specifications are nominal. L-com does not make any representation or warranty regarding the suitability of the part described herein for any particular purpose, and L-com does not assume liability arising out of the use of any part or document.
