

## Customer Information Notification

202504008I : Freescale Logo to NXP Logo Product Marking Conversion for All Remaining Former Freescale Products

**Note:** This notice is NXP Company Proprietary.

**Issue Date:** Apr 16, 2025 **Effective Date:** May 26, 2025

Here is your personalized communication about an NXP notification. For detailed information we invite you to view this notification online

### Management summary

Previously, NXP Semiconductors announced with General Notification 202502001G (16-Feb-2025) the Freescale logo to NXP logo product marking conversion for all former Freescale products not previously converted.

Now for customer convenience, NXP Semiconductors provides a follow-up series of Customer Information Notifications (CINs) to relay to customers their impacted products. Note that due to the extensive product list, your organization may indeed receive multiple CIN notifications to encompass your impacted products.

## Notification Overview

### Description

---

Previously, NXP Semiconductors announced with General Notification 202502001G (16-Feb-2025) the Freescale logo to NXP logo product marking conversion for all former Freescale products not previously converted.

Now, for customer convenience, NXP Semiconductors provides a follow-up series of Customer Information Notifications (CINs) to relay to customers their impacted products. Note that due to the extensive product list, your organization may indeed receive multiple CIN notifications to encompass your impacted products.

Original General Notification 202502001G (16-Feb-2025):

NXP Semiconductors announces the Freescale logo to NXP logo product marking conversion for all former Freescale products not previously converted. This NXP marking initiative achieves unified NXP branding for the entire portfolio.

The anticipated timeline for this Freescale logo to NXP logo product marking conversion aligns with product date code / trace code beginning work week (ww) 22 2025 (last week May 2025), with a ramped implementation over subsequent weeks until all product marking conversion is completed, anticipated ww27 2025, with minimal exceptions. With the standard NXP lot combination practices, which seek to avoid excessive product scrappage, customers may indeed receive product with mixed Freescale and NXP logo markings within shipment trays, tubes, or reels.

This General Notification 202502001G is issued well in advance of the NXP logo conversion implementation date to ensure no customer manufacturing disruptions occur with potential Automated Optical Inspections (AOI), etc. Except for visible Freescale logo to NXP logo change, absolutely no other changes; no change to orderable part numbers, no impact on product form, fit, function, quality, or reliability compared to the product currently received by customers.

Please see the attachment for change details, including representative before and after product logo photos. Note, these are simply representative package types / photos and not intended to capture all package / part instances.

NXP strongly advises that this General Notification and its associated example logo photos be relayed to your site's AOI owners / experts to review your systems and take precautions to avoid manufacturing line disruptions. Although from NXP side we expect the logo to not be part of any potential customer AOI inspection area, only your experts will be able to judge any potential impact. NXP greatly appreciates your cooperation to review and complete this important action item at your earliest opportunity.

#### **Reason**

This NXP marking initiative achieves unified NXP branding for the entire portfolio. Customer Information Notification to relay to customers their impacted products.

#### **Identification of Affected Products**

Top side product marking changes from Freescale logo to NXP logo - absolutely no other changes.

#### **Anticipated Impact on Form, Fit, Function, Reliability or Quality**

---

No Impact on form, fit, function, reliability or quality

#### **Disposition of Old Products**

Existing inventory will be shipped until depleted

## Contact and Support

---

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

**Name** Karina Juhasz  
**Position** Quality Engineer  
**e-mail address** karina.juhasz@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards. Customer Focus, Passion to Win.

NXP Quality Management Team.

### About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.

You have received this email because you are a designated contact or subscribed to NXP Quality Notifications. NXP shall not be held liable if this Notification is not correctly distributed within your organization.
