USB 2.0 Type-A Male/Female Panel Mount Extension Cable

Available in 1ft, 3ft, 6ft, 8ft, 10ft, and 15ft

USB 2.0 Type A Male to Female Panel Mount Extension Cable

Extend and mount your USB connection with ease using this high-quality **USB 2.0 Type A Male to Female Panel Mount Extension Cable.** Designed for use in enclosures, control panels, kiosks, and custom PC builds, this cable allows you to route a USB port to a fixed panel for easy external access. Double-shielded conductor reduces EMI/RFI interference to provide better performance. All relevant materials are complied with RoHS directive.

- **USB 2.0 Compliance:** Supports high-speed data transfer up to 480 Mbps. Backward compatible with USB 1.1 devices.
- **Connector Types: Male Connector:** USB Type-A (standard host connection). **Female Connector:** USB Type-A with **panel mount flange**.
- **Panel Mount Design:** Designed to be securely mounted to a case, chassis, panel, or wall plate. **Screw-mountable flanges** provide a stable and professional installation.
- **Use Cases:** Front panel USB ports for **PC builds**. **Embedded electronics projects**. **3D printer enclosures**. **Vehicle dashboards**. **Custom kiosks or industrial control panels**.
