# USB C to Lightning POE Cable, 10ft, Straight, White - CoolBlue

SKU: CAB-APP-USBC-3M-STR-W

This USB- to Lightning 10ft cable is an essential tool for modern tech users, allowing you to easily sync or charge your Apple devices. The 10ft length of the cable means you can easily plug it in, even if your device is a distance away. The cable is MFI certified, ensuring that it has been tested and certified to work with Apple devices, and the USB- connection is reversible, making it easy to plug in without worrying about the orientation. The cable is strong and durable, allowing you to rely on it for years to come.

## Features

- USB-C to Lightning Cables are MFi-certified and offer fast power delivery charging for iPhone, iPad, and any other apple products.

- This cable ensures your Apple devices are charged safely and at their fastest possible speed with the use of a 20W or higher USB-C Power Adapter.

- These lightning cables also provide data transmission up to 480Mbps.

- USBC to Lightning cables are compatible with all iOS versions and any future updates.

- The cables are tested to withstand over 20000 bends in rigorous tests
