

# AS-INTERFACE modules

## AS-INTERFACE user modules, empty housings

### Product description

For the integration of customer-specific PCB's

into the standard AS-INTERFACE housing.

### Product features

4 user terminals to M12 sockets. Individually assignable.

### Variations

- 2 housing sizes.
- without additional supply.
- with external M12 additional supply (EMS).
- with internal additional supply (EEMS).

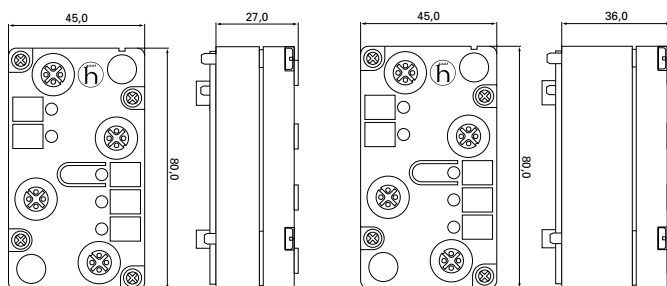

### Basic data

Protection class IP 67. Consult Hirschmann for special applications.

### Further information

see technical data in the catalog AS-INTERFACE DS 280 490-490.
