

Push-In Fastener - Natural; Nylon 6/6; Compatible Panel Thickness Range 2.4 - 2.3 mm | 0.094 - 0.091 in

Item code: **27PIF0040**

Push In Fasteners are an easy to use and quick fastening solution that is ideal for neatly, and securely joining two parts together. Inexpensive, fast, and convenient, they are suitable for the fastening of plastic, light sheet metal, insulating materials, circuit boards, or any other thin, lightweight material. They have specially designed legs that provide compression and expansion, helping to lock the fastener into pre-punched holes. They feature a large head design, which eases assembly. They can also be reused - making them an economical choice for your application. The rivet locks into pre-punched panels. Vibration, abrasion and corrosion resistant.

**Specification:**

<b>Compatible Hole Diameter</b>	0.095 in
---------------------------------	----------

<b>Pin Diameter</b>	0.094 in
<b>Anchor Length</b>	0.161 in
<b>Head Diameter</b>	0.281 in
<b>Head Height</b>	0.033 in
<b>Color</b>	Natural
<b>Full Material</b>	Nylon 6/6
<b>Material Flammability Standard</b>	UL94 V-2
<b>Rivet Head Shape</b>	Pan
<b>Rivet Fitting Style</b>	Push-In
<b>Panel Thickness</b>	0.094 in
<b>Commodity Code</b>	3926909790
