

XJTM Series - Advanced Pure Sinewave Inverters

XJTM Series – XUNZEL

State of the art and easy to use design, these inverters will offer you reliable service for providing AC power and 5V USB power from battery.

True sine wave output. Ideal for operating motor loads, fine electronics and reduce stress on surge protections circuitry, meaning potentially longer equipment life.

Product features

- Pure sine wave (**True Sine Wave**) AC output, with very low Total Harmonic Distortion (THD). Ensure the correct functioning of sensitive devices.
- Converts battery DC power to AC power anywhere with high efficiency.
- Very low self-consumption. **Power Save Mode**. Get the maximum energy of your batteries. Designed for "always-on". High efficiency cooling design.
- **Silent Operation**. Lightweight and robust. **High Resistance Anodized Aluminium Case**. (excl. XJ-400W model)
- High surge capacity (2 x constant).
- With digital display and/or LED monitoring for easy and quick status reading and programming.
- Low battery alarm and shutdown protection to prevent the battery from too deep discharges. Extend the life of your batteries.
- Automatic shutdown protections integrated: overtemperature, short-circuit, overload and low/high battery conditions.
- Easy to install and use. Mounting brackets for permanent installation.
- Safe and reliable.
- **USB 5V-2100mA** "always-ON" output to feed and charge electronic devices.
- Isolation between DC input and AC output for safety.
- **Heavy duty DC input terminals** for direct, simple and secure battery connection.
- Preferred choice for powering off-grid, off-shore, onboard and back-up electronics, sensitive loads and demanding motor loads, including digital clocks, dimmers, variable speed motors, battery chargers, and telecom/audio/visual equipment.
- International output sockets available (available per country) on demand.
- **E-mark approved**
- **Full range of optional accessories available:**
 - Battery Cable Connection Kits and In-Line Fuse & Holder
 - Remote Control ON/OFF with 6-meter cable (code: **RCXJ**)
 - Automatic-Start-XJ (code: **ASXJ**)
 - Smart-StartTM-XJ: 3-positions ON/OFF/Remote (code: **SM2XJ**)
 - XJ-OnBoardTM Systems (code: **XJONBOARD**)
 - Automatic Transfer Switch (code: **TSXJ10**)

Available Models

• XJ-400W-12V-Handy	400W / 12VDC / 1x 230VAC 50Hz
• XJ-600W-12V	600W / 12VDC / 1x 230VAC 50Hz + USB 5VDC 2.1A
• XJ-1000W-12V	1000W / 12VDC / 1x 230VAC 50Hz + USB 5VDC 2.1A
• XJ-2000W-12V	2000W / 12VDC / 2x 230VAC 50Hz + USB 5VDC 2.1A
• XJTS-3000W-12V	3000W / 12VDC / 2x 230VAC 50Hz + USB 5VDC 2.1A +Transfer Switch
• XJ-500W-24V	500W / 24VDC / 1x 230VAC 50Hz + USB 5VDC 2.1A
• XJ-1000W-24V	1000W / 24VDC / 1x 230VAC 50Hz + USB 5VDC 2.1A
• XJ-2000W-24V	2000W / 24VDC / 2x 230VAC 50Hz + USB 5VDC 2.1A
• XJTS-3000W-24V	3000W / 24VDC / 2x 230VAC 50Hz + USB 5VDC 2.1A +Transfer Switch

XJTM Series - Advanced Pure Sinewave Inverters

Product features

- **Maintenance Free True Sine Wave Output** is ideal for operating motors, permanent loads, and to reduce stress on surge protection circuitry, meaning potentially longer equipment life.
- Audio alarm with warning/error codes to alert user to check inverter condition before unit shutdown.
- Automatic shutdown protects overload, over temperature and low/high battery conditions.
- High surge capacity for products that require more power to start (2 x constant).
- High efficiency conversion of battery available power to AC power.

Efficient Automatic Cooling System. Hi-efficiency and silent.

Heavy duty DC battery stud connectors. More Safety.

Socket outlet with safety shutter protection offers increased contact protection and protects from dust and dirt. SCHUKO®, International and Special sockets available.

Certified for Automotive

True / Pure Sine Wave. All loads – including sensitive ones – will perform better, run cooler, and generate low harmonic distortion when connected to this waveform.

Ground lug to provide an excellent way to ground numerous high current accessories to the same point.

Anodized Aluminum Body with stainless steel screws. Installation is robust, safe, quick and easy, requiring only mounting screws for the plate and connection of the DC power.

Control Unit with Digital Display. Easy to use and program different user modes.

XJ™ Series - Advanced Pure Sinewave Inverters

Other recommended accessories that can be very useful

Remote Control

p/n: RCXJ

Remote ON/OFF Controller RCXJ with 6.1-meter cable compatible with **XJ™ Series**, **XJTS™ Series** inverters and **XJC™ Series** inverters + chargers. Allows inverters to be switched on, off and remotely programmed. Easy to install and use.

IMPORTANT NOTE: For use with XJC Series inverter-chargers and XJTS-3000W Series inverters, the ISXJCS accessory (not included) is required.

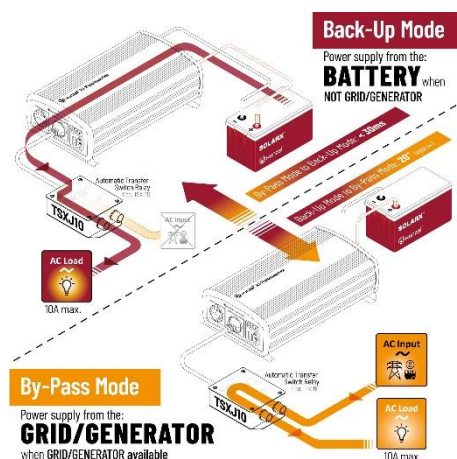

Universal Automatic Transfer Switch Relay

p/n: TSXJ10

The Automatic Transfer Switch Relay TSXJ-10 (10A – 2300W) switches safely and automatically the power supply between two sources, from the main utility grid or generator to a backup power source.

With voltage synchronization, it ensures that power is only supplied from one source at a time to avoid damaging electrical equipment or creating hazardous situations.

Plug&Play and Universal, designed and valid for all kind of pure sinewave inverters up to 2000W, including **XJ™ Series** pure sine wave inverters.
