

## Magnet Applications Technical Datasheet

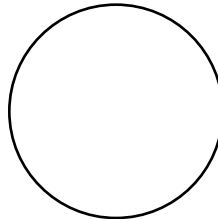

**Part Number:** N52P062062

**Description:** MAGNET 0.062" D x 0.062" T disc

| Shape                  | Disc                                   |
|------------------------|----------------------------------------|
| Dimensions             | 0.062" D x 0.062" T disc               |
| Material               | NdFeB (N52)                            |
| Finish                 | NiCuNi Plated                          |
| Magnetization          | Through Thickness (Axial)              |
| Dimensional Tolerances | $\pm 0.005"$ (all dims), $\pm 1^\circ$ |
| Special Features       | —                                      |

Top & Side Views (not to scale)

D=0.062"

T=0.062"
