

Product Change Notification

TE Connectivity

Product Change Notification: PCN-25-255802

PCN Date: 04-SEP-25

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

CPC accessories (cable clamps, protective caps and extenders)

General Description of Changes

The material used in the CPC portfolio is being transitioned from Nylon (PA) to Polybutylene Terephthalate (PBT) resin. The new PBT material meets all current functional and performance requirements of the component and is fully qualified for the intended application. Small modification were added to some components not affecting performance (see attachments).

Other attachments:

[Cable Clamp new features \(size 11 & 13\)](#)

[Cable Clamp new features \(size 17\)](#)

[Cable Clamp and Extender new features \(size 23\)](#)

Reason for Changes:

We are transitioning to a new resin material(PBT) as part of our commitment to sustainability and improved service. This material change enables a reduction of approximately 30% in CO emissions and enhances supply chain reliability. It also supports better alignment across our product lines, helping us respond more consistently to customer needs and maintain a high level of service.
