

**Part Number: ABH1-2AA**

MPD’s part number ABH1/2AA is a battery holder with pressure contacts that includes a battery retaining strap cover. It accepts PX28L batteries as well, and sits 16.5mm above the PCB. The ABH1/2AA is packaged in 100 piece trays for your convenience. The holder is crafted from self-extinguishing black glass-filled thermoplastic Polyester. Temperature range of -40c to +180c. The ABH1/2AA battery holder has a flammability rating of UL94V-0. The pressure contacts are nickel-plated stainless spring steel. This part is RoHS2 compliant for worldwide distribution and surpasses ANSI/EIA standards, guaranteeing quality. The ABH1/2AA is well crafted and includes a battery retaining strap.

**Specifications:**

Battery Holder	1/2AA, PX28L
Holder Material	PBT thermoplastic

Contacts Material	301 spring temper stainless steel, nickel plated
Regulations	UL94V-0, RoHS 2 Compliant

**Description:** 1/2AA Battery Holder pressure contacts also Accepts PX28L  
And other smaller cells. Height Above PCB: 16.5 mm

**Plastic**

Material: Glass-filled thermoplastic

Color: Black

Flammability: UL 94V-0

**Metal**

Material: Nickel-plated stainless spring steel

Termination: PC pins
