

CLIFF

12GHz GOLD BNC FEEDTHROUGH

Our new gold plated BNC connector offers a 4K video standard connector future-proofing broadcast systems and patch panels and offers industrial users a high-reliability, lower contact resistance connector for sensors, instrumentation and test and measurement.

VARIANTS

CP303112G - XRP12 GOLD BNC 75Ω 12GHz, CSK HOLE

CP303112GX - XRP12 GOLD BNC 75Ω 12GHz, PLAIN HOLE

CP303112GM - GOLD BNC 75Ω 12GHz, NICKEL FRAME, CSK HOLE

CP303112GMB - GOLD BNC 75Ω 12GHz, BLACK METAL FRAME, CSK HOLE

CP303112GSA1 - ASSEMBLED BNC INSERT ONLY 12GHz GOLD BLACK

CP30186 - 16 x GOLD BNC 75Ω 12GHz, FRONT MOUNTED, M3 HOLES

SPECIFICATION 12GHz BNC

Impedance:	75Ω
Frequency:	0-18 GHz
Dielectric Withstand Voltage:	1500 Veff
Insulation Resistance:	5000MΩ
Operating Temperature:	-35°C to +70°C
Contact Retention:	10N min
Mating cycles:	500 cycles

BNC INSERT
