NETGEAR 10/100/1000Mbps 5 Port RJ45 Switch

SKU: SWTC-GS105NA

NETGEAR's Gigabit Switches offer users high-speed network connections in a compact cost effective switch. The GS series switches feature auto-negotiation between 10, 100 and 1000MB connections allowing users to migrate to higher speeds over time. With Auto uplink and full duplex operation, these NETGEAR Gigabit switches make connections simple and fast. Includes an external power supply. As an authorized NETGEAR reseller, we can bid on RFQs for any NETGEAR part numbers. Contact us to request a non-obligatory quote!

Features

Auto-negotiation provides compatability to older equipment.
Plug and play operation provides ease of use.
Small footprint leaves room for other equipment.

Application

Basic workgroups.
Household networks.
Small office LANs.
