Packaged and sold in quantities of one

We have taken our strong selling PTQ Fiberglass/Polycarbonate blended series and introduced a lower cost ABS version.

Benefits and Features

- Body Made of Gray ABS
- Cover made of Gray ABS
- High impact resistance
- IP67 TUV rating to keep out dust and water in extreme conditions including submersion
- RoHs compliant
- UL-94 HB rating
- Suitable for Indoor use with respect to exposure to Ultraviolet Light.
- -20c to +60c extended exposure condition
- Continuous gasket

Accessories

- Steel internal mounting plate
- External Mounting brackets steel or plastic

BUD PTQ Series

Applications

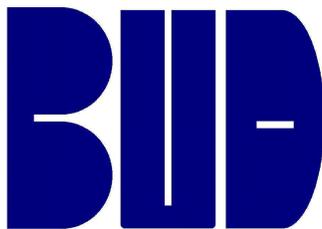

- Control Boxes
- WIFI and radio housing
- Lighting
- Access Controls
- Facilities With Wash Down Requirements
- Pharmaceutical
- Corrosive Environments
- Chemical Plants
- Agriculture
- General Factory Environments

Competitive Advantage

- Lower cost while retaining durability and strength
- High Strength and impact resistance
- Light weight
