Product Change Notification

Content: Change for the purpose of better traceability, better solderability and environmental protection

Applic	ation: TSMTpackage	series (3, 5 and 6 pins)	
		Current	After change (additional spec)
	1. Mold resin	Bromine-based flame retardant epoxy resin	Halogen free flame retardant epoxy resin
		(Flame retardant grade: UL94 V-0)	(Flame retardant grade: UL94 V-0)
		No change for products using Halogen	free resin currently
	2. Solder composition	Sn-3Ag-0.5Cu (Dipped melted solder)	Sn (Electro plating)
		Solder surface: Glossy	Solder surface: Matte
	3. Making (Dot mark)	Discernible manufactured date with 16dots	Discernible complete production lot code with 30dots
	External appearance (Example)	Glossy surface on pins> Dot marking max 16 dots	Matte surfece Dot marking max 30
		(Current)	(After change)
		note) Nothing changed for package dime Nothing inferior for performance no	
Reasons of change	1. Shift to environmental friendly halogen-free resin 2. Improvement of solderability with pure-tin plating on pins 3. Perfect traceability with high density 30 dots marking on package		
Termof change	Running change for the products of delivery from January/2015.		
Attchment	Nothing
